Ranch Equipment

ALL-STEEL CONSTRUCTION
**MODULAR &
VERSATILE**

Classic Barn

Priefert

is proud to announce the addition of a new line of top quality barns. Available in a variety of sizes, colors and styles, these barns are a great aesthetic, fully functional addition to any homestead. The versatile layout is great for many applications and the easily expandable design allows for later growth.

Like all Priefert products, the Priefert Classic Raised Center Aisle (RCA) Barn begins with strong steel construction. Add to that our architectural grade powder coat finish, two snow load capacity options and the result is another durable, dependable product from Priefert. This barn combines easily with Priefert panels and stall fronts to create custom stalls for horses or confinement areas for other livestock.

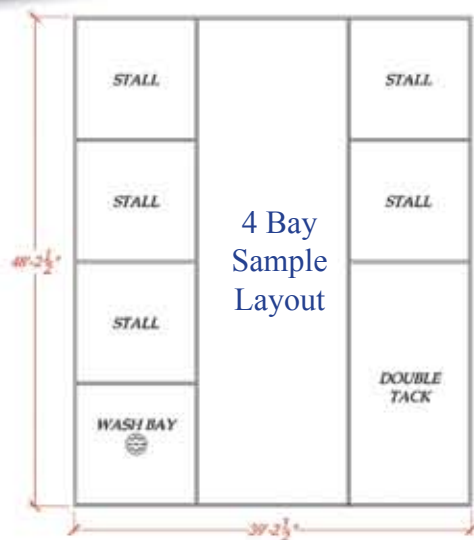

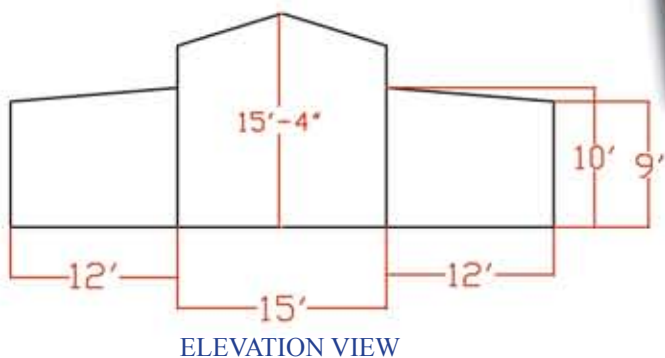

- ❖ Architectural Grade Powder Coated Frame
- ❖ Versatile, Easily Expandable Layout
- ❖ Easy Attachment of Panels, Stall Dividers & Stall Fronts

- ❖ Predrilled Holes for Quick & Easy Assembly
- ❖ Truss Design for Superior Strength
- ❖ Bird Stop Design

LAYOUT

Here is the Priefert Classic Raised Center Aisle Barn layout and dimensions. Each layout begins with a single bay then expands with the addition of multiple bays to fit your needs. The Priefert Classic Barn layout can be customized with several options set according to your specific project.
